PURPOSE

The purpose of this book is to present to those of interest information about Spiritual Palo Mayombe as practiced by the Montenegro Family of both Puerto Rico and Brazil.
INTRODUCTION

Within the complex Santeria Religion, there exists a dark side called Palo Mayombe. The individual's who practice this dark aspect are called Paleros. Palo Mayombe has a long and historical history. Originating in the African Congo, the magic of Palo Mayombe was transplanted to the Caribbean during the Spanish slave trade to Puerto Rico and Cuba in the 1500's.

The Caribbean was not the only region to experience the Palo Mayombe awakening. The influence of Palo Mayombe can also be found in Brazil, Central America and in the Vera Cruz region of Mexico. Palo Mayombe in Brazil is referred to as Quimbanda. Quimbanda is a mixture of traditional Congo, Indigenous Indian and Latin American spiritualism.

There is a sharp distinction between Palo Mayombe and Santeria. The religion of Santeria uses the forces of light. The initiated members of Palo Mayombe use the forces of darkness to achieve their goals and magical spells. Because Paleros practice extremely strong and powerful black magic, many practitioners of Santeria avoid being associated with Palo Mayombe.

Palo Mayombe has its own priesthood and set of rules and regulations. Rules and regulations will vary according to the guidelines of the Palo Mayombe house to which an individual has been initiated into. Although Palo Mayombe was integrated as part of the Santeria religion, it is an entirely different world rarely experienced outside of the Latin American Spiritual Community.
In these days and times, it is rare to find a sincere individual who works strictly in Palo Mayombe. The most powerful Paleros are usually found in remote villages and towns scattered throughout Latin America. In the United States there are several famous and renown Palero Priests as well as secret societies dedicated to the teachings of Palo Mayombe.

Paleros generally do not advertise their powers and will only perform spiritual work for an individual by referral. The power of many Palero Priests is so strong that they can take a man of obscure origins and turn him into a very powerful world figure in a relatively short period of time. Many of the most notorious and famous Latin American and Caribbean political leaders have been linked to an involvement with the practice of Palo Mayombe in order to keep them in power and control over the people. It is believed that a Palero can also bring death within a 24 hour period to an individual. A Palero can make or break you by saying just a few incantations and performing a few minor rituals.

There has been much publicity about Santeria in recent years, but books about Palo Mayombe are obscure and rare. The majority of the information released to the public has been negative. Information comes from individual's who are not initiated and are ignorant to factual and cultural information. Historically, ignorance or the lack of understanding has always brought fear to people. In many cases this ignorance has brought extinction to entire races of people and cultures.
It is my hope that I will be able to present to those of interest some general information and techniques about spiritual Palo Mayombe. The techniques, spells and rituals are based on the teachings of the Montenegro Family of Brazil who have been practicing this powerful magic for over 200 years.

Palo Mayombe is a very fascinating and exciting aspect of Santeria and it should not be taken lightly or ignored. I am thankful to have had the opportunity to have become a part of this ancient and beautiful form of magic. It is with great honor and pride that I salute my family and ahijados in Palo Mayombe.
SPIRITUAL INITIATIONS

When an individual decides to take the step of initiation into Spiritual Palo Mayombe, it is a life long commitment to the service and dedication to our Ancestors and Spiritual Guides. More importantly, a Palero Priest’s function and role is to serve and protect the community. An individual initiated into Palo Mayombe is baptized into the secrets and mysteries of the spirit realm. Paleros say that they are born of fire and in the end will die of fire. By becoming a Palero Priest, they become a light in darkness that attracts the blessings of the spirits. In death, a Palero Priest will be extinguished by the greatest light of all, Olodumare who is God the Father. When a Palero’s life is extinguished in death, they become an elevated spiritual guide of the eternal living darkness.

Before an individual can become a part of Palo Mayombe, they must first consult an experienced Palero Priest. The Palero will determine through direct contact with the spirit world and the person’s ancestors if they will be able to practice Palo Mayombe. Many times the spirits will reject an individual because Palo Mayombe may not be a part of that individual’s spiritual path or destiny. The spirits may also deny access to an individual because they may not yet be ready to handle or understand the responsibilities of being a Palero.
If the spirits respond favorably to your requests, the next step is to receive a spiritual cauldron or spiritual pot. After the invocation ceremony, the spiritual cauldron contains the secrets and powers of powerful spirits. In the Caribbean, this cauldron is called a Prenda or Nanga.

Because of the influence of Latin American spiritualism and culture on modern day Palo Mayombe, it is not uncommon to find Paleros whose Spirits or Muertos (The living dead) are kept inside of a large simple clay pot instead of the traditional large iron cauldron. The form in which you will receive your spirit will depend on the Palo Mayombe Priest or family who will be assisting or teaching you the secrets of Palo Mayombe.

Receiving the initiation and the spirits of Palo Mayombe is only the first step in a long and beautiful journey into the realm of the spirits.
The spirit Zarabanda is the divine messenger of the underworld. It is through the spirit Zarabanda that mankind can communicate directly with the spirit world. The cauldron contains all of the elements necessary for the spirit Zarabanda to manifest and operate on earth. The spiritual cauldron is a microscopic world and the doorway to another dimension.

It is believed that an individual can not self initiate themselves into the secrets and mysteries of Palo Mayombe. In the ancient customs of the African Congo, when an individual was initiated, he went into the bush by himself or with an elder and collected all of the elements necessary to create this powerful spiritual world. It was done out of respect and veneration for the individual's ancestors as well as for spiritual protection. The individual's who received this initiation believed that they would be empowered with special magical powers from the spiritual world. The custom of self initiation changed when the Africans were brought to the New World. In order to regulate and create a hierarchy within the slave population, group initiations into Palo Mayombe were created.

These are the items that are needed to prepare the Spiritual Cauldron of the spirit Zarabanda. The average cost of the items needed to construct a legitimate and authentic cauldron of Zarabanda can range from $3500 to $4500. These items may vary according to the tradition of the Casa De Los Espiritus (Palo Mayombe Temple).

If another Palero is constructing your spiritual cauldron, you must be extremely cautious and make sure that he is legitimate and has a good reputation within the Palo Mayombe community. I have seen many individual's initiated into Palo Mayombe whose spiritual cauldrons contained nothing but unconsecrated rocks, sticks and commercial potting plant soils. If a spiritual cauldron is prepared in the incorrect manner, it will be detrimental to the individual's success, happiness, health and spiritual success. The cost to dismantle a spiritual cauldron that has been prepared incorrectly sometimes is more than the cost to put one together.

This formula and the following initiation method has been used with great success and has produced extremely powerful magical results for the individual's initiated into the Montenegro Casa De Los Espiritus.
PREPARATION

FRIDAY 11:00 P.M.
DAY 1

1. Place the iron cauldron in a location where it will not be disturbed during the 7 day initiation period. Most Paleros recommend buying a large outside metal shed that sits right on top of the open ground. If you have a basement, this would be the perfect location. If you live in an apartment, a room that you do not sleep in or is not frequently occupied.

2. Paint the symbol of Zarabanda with white paint on the inside bottom of the iron cauldron.

3. After the paint has dried, wash with holy water from a Roman Catholic Church.

4. Take a mouthful of rum and spray it directly into the iron cauldron. Do this 3 times.

5. After spraying the inside of the cauldron with the rum, light a cigar and blow the smoke directly into the cauldron. Do this three times. After you have done these first steps, the cauldron has been purified, baptized and is ready to receive the spirit.

6. Place all of the different dirts into the cauldron.

7. Add all of the mercury into the cauldron.
8. Place the large smooth stone on top of the different dirts.

10. Place the large arrowhead into the cauldron.

11. Place the human skull on top of the stone.

12. Place all of the other human bones around the skull.

13. Place the seven railroad spikes into the cauldron. The pointed end of the spikes should be facing down into the dirt.

14. Place all of the palos into the cauldron. The palos should be sticking out.

15. After you have finish placing all of the Palos into the cauldron, place the machetes into the cauldron. The machetes should be placed in the directions of North, South, East and West.

16. Place the large metal implements of the Orisha Oggun into the cauldron.

17. Place the large iron crossbows from the Orisha Ochosi into the cauldron.

18. Place items 95 and 96 into the cauldron.
19. Place item 100 into the cauldron.

20. Place the large blessed crucifix into the cauldron. The crucifix should be placed towards the rear of the cauldron so that it protrudes over the back of the skull.

21. Place the five prepared Cowrie shells in a dish in front of the cauldron. These Cowrie shells will be used as a divination tool in a later chapter.

22. Go over your check list to make sure that you have everything in the cauldron before proceeding to the next step.

23. Wrap the large metal chain around the outside of the cauldron and lock up with a large padlock. The keys to the padlock should be kept in a secret location.

12:00 MIDNIGHT

Once you have completed this first and important initiation step, you will be able to start your long journey into the magic and mysteries of Palo Mayombe.
The initiation Ceremony of El Cristo Negro is common in Central America as well as in Mexico. El Cristo Negro is the Lord and King of the underworld. All spirits of Palo Mayombe must bow down before him. He is represented in the form of a crucified black Christ. The mysteries of El Cristo Negro are received in a very intense three day ceremony. This is one of the most powerful initiations that can be received by an individual who has been initiated into Palo Mayombe or black magic. The secrets and power of El Cristo are received inside of a large black ceramic pot. He is symbolized by black roosters and also crows. The collares of El Cristo Negro consist of three black beads, one silver bead and three clear beads. This initiation ceremony can only be performed once a year starting three days before the Roman Catholic Rite of Easter.
INITIATION CEREMONY OF THE LOS ESPIRITUS INTRANQUILOS

Los Espiritus Intranquilos or the Seven Intranquil Spirits are used in many rituals and spells common in Mexican and Central American witchcraft. The ceremony in which an individual is initiated into the mysteries of the Seven Intranquil Spirits takes place over a period of seven nights. The mysteries and secrets are received in a large black, blue and purple colored ceramic pot. When an individual receives the mysteries of the Seven Intranquil Spirits, they will be empowered to work with very strong cemetery spirits who can assist in black magic spells. The collares of the Seven Intranquil Spirits consist of seven multicolored beads and one large black onyx bead. This initiation ceremony usually takes place during the start of a new or full moon.
The most beautiful initiation ceremonies is that of the Santisima Muerte. This lengthy ceremony lasts for seven days and nights. This ceremony is equalvalant to the initiation ceremony in the Santeria religion called making the saint. This ritual initiation ceremony comes from the Vera Cruz region of Mexico. The Santisima Muerte is the Goddess of the Cemetery and of Death. Her powers and historical origins can be traced back to pre-Aztec era. Santisima Muerte is the chief spiritual force used by Mexican spiritualists and witches for a variety of different types of magical works. The initiates of the Santisima Muerte are usually single as the Santisima Muerte is an extremely jealous spirit. The mysteries of the Santisima Muerte are received inside of a large gold, black and red ceramic pot. The Santisima Muerte and El Cristo Negro work well together and usually the spirits will require an individual to receive both of them. The collares of the Santisima Muerte consists of seven red beads, seven clear beads and seven black beads.
San Simon is a very powerful spiritual force in the world of Palo Mayombe and Central American Black Magic. San Simon is the keeper to the Laws of Divine Justice. The ritual and initiation of the mysteries of San Simon originated in the Blue Fields region of Nicaragua. San Simon's initiation ceremony takes place for three nights and it includes a very large fiesta in honor of this extremely powerful spirit. When an individual becomes a priest or priestess to the powers of San Simon, they receive the power, knowledge and secrets to Divine Justice. The mysteries of San Simon are received inside of a medium size black and white ceramic pot. The collares of San Simon consists of three black beads and three white beads. Many priests initiated into the mysteries of San Simon also have a medium size iron cauldron that is said to contain the heart to the dark side of this powerful spirit. San Simon is the most powerful spirit that a Central American black magician can be initiated into. This ceremony also gives an individual the power of invisibility from the law. This initiation ceremony is rarely performed outside of the Central American region and there are very few individual's in the United States or Europe who have received it.
El Cristo Rey is the Lord Of The World. He is the direct contact between man and God. He is associated with spells of Divine Justice, harvest, fertility and healing. A Palero will receive the initiation of El Cristo Rey to reverse witchcraft and also for spiritual alignment. The initiation ceremony of El Cristo Rey takes place for a period of three days. This ceremony gives an individual great healing powers, telepathy and the power to work with white light spirits. The mysteries of El Cristo Rey are received inside of a large white, gold and red colored ceramic pot. The collares of El Cristo Rey consists of seven white beads, one gold bead and seven red beads. This initiation ceremony has also been known to heal terminally ill individual's.
The Madre De La Luna is the Goddess Of The Moon and of Los Brujos De Las Noches (Witches Of The Night). She is most often identified in Mexican Witchcraft as Nuestra Senora De La Luna. The initiation ceremony of the Madre De La Luna takes place in a field at night. This initiation ceremony never takes place unless there is a full moon. This initiation ceremony is performed in many remote parts of Mexico by Mexican witches. During the initiation, the initiate will receive the sacred knife which contains the power to the mysteries of the Madre De La Luna. This sacred knife is a powerful amulet for performing love spells. Without this knife an individual consecrated into the mysteries of Madre De La Luna is powerless. The collares of Madre De La Luna consist of pure quartz crystal beads with one crystal skull. She is sometimes identified as an owl by her initiates.
The spirit Madre De Agua is one of the most powerful spirits in Traditional Palo Mayombe. The mysteries of Madre De Agua are received in an initiation ceremony inside of a traditional Santeria Sopera. The powerful Madre De Agua is known in Palo Mayombe to possess the secrets to strong love and money magic. Many Paleros say that with Madre De Agua, you can have anyone you desire as a lover. The Madre De Agua is also used in other powerful magical works. The collares of Madre De Agua consists of seven multi-colored beads, two clear beads, one coral colored bead and three blue beads.
La Santisima Piedra Iman is a very powerful spirit in Traditional Palo Mayombe. The powers of this spirit are used in both black and white magic. The spirit is used to attract money and wealth. This spirit is used by many businessmen in Latin America to achieve tremendous wealth and prosperity. The mysteries of this spirit are received inside a large ceramic pot. The collares of this spirit consists of three green beads, three clear beads and three black beads.
The initiation ceremony of the spirit Francisco De Los Siete Rayos (Francisco of the Seven Rays) is one of the most ancient and traditional ceremonies in Caribbean Palo Mayombe. The mysteries and secrets of this powerful spirit who rules the four winds are received in either an iron cauldron or a large deep Terra Cotta bowl. The cost of this initiation ranges from $2500 to $3500.
INITIATION CEREMONY
OF
MAMA CHOLA

This powerful female spirit is used in spells of love and fertility. This is one of the traditional spirits received in the practice of Palo Mayombe from the Caribbean. This ceremony is not common in Central American nor Brazilian Quimbanda. The cost of this initiation ceremony ranges from $1500 to $2500.
The Spiritual Misa of Palo Mayombe is the most important part of the Palo Mayombe religion. It is through a misa that you will be able to communicate directly with the spirits of Palo Mayombe. It is also through your first Palo Mayombe Misa that the names of many of your ancestor's spirits will be revealed. There are other types of misas in Santeria, but the Misa of Palo Mayombe should only be done alone or with other initiates of Palo Mayombe. By having these frequent meetings with your spirits, the bond between the two of you will grow stronger. During a misa, many strange supernatural events and visions may take place. Do not be alarmed of these events, it is only the spirits revealing their power to you.

**HOW TO CONDUCT A PALO MAYOMBE MISA**

1. Draw a large circle of cascarilla around an area on the ground.

2. The circle must be large enough so you can place a chair inside the circle.

3. Place 13 red candles around the circle.

4. Light the candles.
5. Place the spiritual cauldron into the circle.

6. Place a chair inside of the circle facing the spiritual cauldron.

7. Tap the ground in front of the spiritual cauldron three times.

   We believe in one God,
   The Father, the Almighty
   maker of Heaven and Earth,
   of all that is seen and unseen.
   We believe in El Cristo Rey,
   the only son of Olodumare,
   eternally begotten of the Father
   God from God, Light from Light,
   true God from true God,
   begotten, not made, one in being with the
   Father. Through him all things were...
made. For us men and for our salvation he came down from heaven, by the power of the Holy Spirit he was born of the Most Holy Mother the Virgin Mary, and he became man. For our sake he was crucified.

He suffered, died, and was buried. He descended into hell and conquered the angel of death and took his rightful place as the Lord Of The Underworld. On the third day he rose again in fulfillment of the prophecies, he ascended into Heaven and is seated at the right hand of Olodumare. El Cristo Rey will come again in glory to judge the living and the dead, and his kingdom will have no end. We believe in the Holy Spirit, the Lord, the giver of life, who proceeds from the Father and the Son. With the Father and the Son he worshiped and glorified. He has spoken through the Prophets. We look for the resurrection of the dead, and the life of the world to come.

AMEN

Our Father who art in Heaven, hallowed by thy name, thy kingdom come, thy will be done on earth as it as it is in Heaven. Give us this day our daily bread, and forgive us our trespasses as we forgive those who trespass against us, and lead us not into temptation, but deliver us from evil.

AMEN
O powerful Spirit, I ask you to reveal yourself to me. I ask you in the name of all those who have come before you. O powerful Spirit, you are born of fire and dwell in my eternal soul. Reveal your power and sacred mysteries to me in the name of El Cristo Negro and El Cristo Rey.

AMEN

13. Meditate and close your eyes.

14. The spirits will speak to you through visions and sometimes you will even be able to see and hear the spirits.

This Spiritual Palo Mayombe Misa should be done on a weekly basis. It may take some time before the spirits have enough confidence in you to reveal their secrets to you. When they begin sharing their mysteries with you, your life will be changed forever.

CLOSING THE SPIRITUAL PALO MAYOMBE MISA

O powerful and eternal Spirit, I thank you for revealing the secrets of your mighty wisdom with me. I respect you and honor your great power. I ask for your protection and divine power to be with me for all eternity.
The rituals and prayers of Palo Mayombe are simple but yet complex. Performing rituals with the spirits is a serious and important aspect of Palo Mayombe. The more time that you spend working with the spirits, the more benefits you will receive. The spirits will never give you a situation that you can not handle, although be ready to prove your allegiance to them. If you fail them, it may be a long time before you regain their confidence. The further you go into Palo Mayombe, the more rituals you will need to learn. If you have a good Madrina or Padrino in Palo Mayombe they will be able to teach you and tell you when you are ready to receive the next initiation of Palo Mayombe. For the beginner of Palo Mayombe, I have included just a few prayers and rituals to get you started.

SALUTING THE SPIRIT OF ZARABANDA

This is how you should salute your spiritual cauldron each and every time you come before it. You should do this at least twice a week. If you will be working strictly with the forces of Palo Mayombe, you will need to do this on a daily basis. The best time to do this is in the morning hours before seeing your first client.

Defender of the Realm of El Cristo Negro and of Earth do not let this evil consume us. To your great name be endless praise.
When a Palero conducts a cleansing ceremony for an individual, it is usually associated with removing witchcraft or strong sorcery. Because the magic of Palo Mayombe is so strong, usually only a Palero Priest has the knowledge to remove what another Palero has done to an individual. It must be remembered that a Palero Priest works with the spirits of darkness and therefore he will use a great amount of his knowledge in the black arts as well as his own energy to save the individual. If a Palero fails, at this task at cleansing an individual, it might be his last. Spiritual cleansings are performed with a wide variety of items such as candles, spiritual waters, herbs and live animals. An experienced Palero Priest will be able to quickly determine the type of spiritual illness that plaques an individual and the necessary remedy.

La Casa De Los Muertos or the House Of The Dead is where the spirits of Palo Mayombe reside. Because the forces and the power of the dark spirits are so fierce, they can not be kept with a Santero’s Santos or other spiritual guides. Traditionally, a Palero will keep his spirits in a special outside house or even in a metal shed. This special house must have a lock to keep away curious people. The house must be large enough to conduct your dark magic or misas. If you live in an apartment, you must keep your spirits in a separate room or in a closet large enough for them. A basement is the perfect place for working with the spirits of Palo Mayombe. If you receive other spirits of Palo Mayombe, they can be kept together. There should be a minimum amount of light and at least one candle burning in honor of the spirits at all times. La Casa De Los Muertos should be well stocked with the traditional supplies and magical elixirs of a Palero. The following is a list of supplies that you should keep with your spirits.

SPIRITUAL CONSULTATIONS

The five Cowrie shells that were consecrated in the initiation ceremony can be used for communication with the spirits. The shells should be washed off, of all the blood and other sacred ingredients. By consecrating them with your spiritual cauldron, you have also given them life and a direct line to the world of the dark spirits.

PREPARATION

1. The Cowrie shells should be opened up on one side and prepared in the Santeria tradition.

2. The shells should be thrown on a straw mat or a round tightly woven wicker shallow basket.

3. There should always be a candle lit at your spiritual table.

4. There should be always a glass of fresh water with a crucifix at the spiritual table to collect the negative vibrations.

5. Palo Mayombe Holy Water, cigars and rum should always be available at your table, as the spirits sometimes have strange requests.
PROCEDURE

1. Begin by honoring the Ancestors with water. Place three drops of water on the ground and say.

   Omi Totu Ana Tutu Omi Olofin A
   Leggua Tutu Elei

2. Take the Cowrie shells and begin shaking them in both hands in a clockwise rotation.

3. Begin and open up the reading by the following prayer while shaking the shells.

   Boguo Imaworo Iyalocha Babalocha
   Babalao Oluoricha Icu Embelese Ibae
   Balleral Baye Tonu.

   A todos los Oluos que estan Icu Ibae.
   Kinkamache Mi Madrina
   Kinkamache Mi Padrino

   Kosi Icu
   Kosi Arun
   Kosi Feitibo
   Kosi Arafin

Name of the person that you are conducting the consultation for.  ______________.
4. After saying the name of the individual receiving the reading, begin to shake the shells in a counter clockwise rotation. Say the following words.

   Fu Mi Obon  
   Fu Mi Abarra  
   Fu Mi Italero  
   Fu Mi Ifa

5. Give the shells to the individual and allow them to shake them in their hands. Tell the individual to concentrate.

6. When the individual has finished, take the shells back and present them to their head and both hands.

7. With the shells in your right hand, make the sign of the cross on the table.

8. After making the sign of the cross with your hand, release the shells onto the mat.

9. Mark the number down and throw the shells again.

10. Throw the shells again for the second number.

11. This first combination of numbers will tell you if the spirits are willing to speak to the individual and if the reading comes with blessings from the spirits or with warnings.
12. If the spirits do not wish to speak to the individual, the Palero must find out why and if a simple offering such as a cigar or rum can open up the communication between the individual and the spirits.

13. The Palero should always keep a record in his Libretta or the Book Of Shadows of the numbers which fall for an individual.

14. The Shells must always be thrown twice to get a combination of two numbers.

15. The shells should be read by counting the amount of shells that are open sided. That will be your number to write down.

16. A good Palo Mayombe reading should last no more than 30 minutes and it should include the spiritual remedies for the individual.

The normal cost for a reading is $21.00 to $42.00. This money should only be used to buy materials and offerings for your spirits.

Animal sacrifice is an important part of the rites and rituals of Palo Mayombe and to the Santeria Religion in general. The sacrifice of animals should not be taken lightly and it must be carried out in accordance with strict religious regulations. Only initiated members of Santeria and Palo Mayombe may conduct a sacrifice in the following manner. Under no circumstances must the animal be allowed to suffer as this would violate the Santeria and Palo Mayombe code of ethics.

The following procedure can be used in both Santeria as well as Palo Mayombe.
